the.ans.khan@gmail.com ◇ anskhan.netlify.app ◇ github.com/Muhammad-AnasKhan ◇ [/in/muhammad-ans-khan](https://in/muhammad-ans-khan)

Software Engineer with 3+ years of experience in Full Stack Development, specializing in .NET and modern web technologies. Proven ability to design scalable applications, integrate advanced APIs, and leverage cloud platforms for robust solutions.

SKILLS

Technical Skills:

- **Frontend:** HTML, CSS, JS, Bootstrap, jQuery, Ajax, Tailwind, React, Angular
- **Backend:** .NET, .NET Core, MVC, Rest API's, Django, NodeJS
- **Databases:** SQL Server, PostgreSQL, MongoDB, MySQL, SQLite, ORMs, EfCore
- **Mobile Development:** (Familiar): Android, Flutter
- **Tools:** Git, GitHub, Bit bucket, GitLab, Azure DevOps, Postman, Swagger
- **Cloud:** AWS, Azure, Docker, Netlify, Vercel, Heroku, VPS, Linux
- **Integrations:** OpenAI API, Stripe, Twillio, MS Graph, MS Teams, OAuth 2.0, SSO, Webhooks

Soft Skills:

- Rapid Learner, Problem Solver, Team Collaboration, Effective Communication

EXPERIENCE

Software Engineer

June 2024 - Present

Atrule Technologies - Multan - Onsite

- Developed and optimized scalable web solutions by revamping legacy systems, building robust backends with .NET and Azure services, automating workflows, ensuring performance and efficiency.

Key Projects:

- **Contract Management System**
 - Led a team to debug and optimize an AI-generated contract management system with severe configuration and code issues.
 - Resolved and re-engineered faulty configurations front-end (Vue, Quasar) and back-end (.NET, MS SQL Server) flaws, enhancing stability and performance.
 - Technologies: Vue, .NET, MS SQL Server, Quasar.
- **Studio Reception**
 - Automated site creation for a legacy multi-tenant system by introducing pre-configured themes, designing an efficient installation process, and cleaning existing data, reducing manual effort and ensuring scalable, consistent deployments.
 - Technologies: .NET, MS SQL Server, VB, Web Forms.
- **Skeddle LMS App**
 - Integrated MS Teams API using Microsoft Graph and OAuth 2.0, enabling seamless event and webinar management with secure authentication.
 - Technologies: Angular, .NET Core Web API, MS Teams API, MS Graph API, OAuth 2.0, C#.
- **Wynshop Customer Notification App**

- Built a .NET Core Web API backend supporting secure role-based authentication, order management, and Twilio-powered SMS notifications with URL shortening.
- Technologies: .NET Core Web API, Twilio, CQRS, Role-Based Authentication, Rebrandly URL Shortening, C#, React Js

- **Automated Job Scheduler**

- Designed a job scheduling system using Quartz.NET, Azure Functions, and Queues, with a dashboard for job management and cron-based scheduling.
- Technologies: Quartz.NET, .NET Core, MVC, Azure Functions, Azure Queues, Cron Expressions, C#.

Software Engineer

Jan 2022 - June 2024

Algosden Solutions - Multan

- Designed, developed, and deployed full-stack web applications using ASP.NET Core and modern front-end technologies like Razor Pages, JavaScript, and Bootstrap.

Key Projects:

- **Fuel Station Information System**

- Developed and deployed a comprehensive web solution using ASP.NET Core MVC to manage fuel station operations with secure role-based authentication, reporting and analytics charts enabling better decision-making.
- Technologies: .NET Core MVC, Razor Pages, OOP, C#, SQL Server, HTML5, CSS3, JavaScript, Bootstrap, JavaScript Charts.

Full Stack Engineer

2022 - 2024

Freelance/Remote

- Designed and developed full-stack applications using diverse technologies, including .NET, Django, PHP, and Node.js.
- Created mobile applications with Android and Flutter

Front-end Engineer

2021 - 2023

Freelance/Remote

- Translated UI designs into dynamic and responsive websites using HTML, CSS, JavaScript, Bootstrap, and jQuery.
- Built and customized websites on WordPress, ensuring functionality and optimal user experience.

PROJECTS

Personal Portfolio Website - <https://anskhan.netlify.app>

Party Invites App - .NET Core

- Developed a web app to manage party invitations and RSVPs with responsive UI and secure authentication.
- Deployed to Microsoft Azure with Azure App Service and Azure SQL Database.
- Technologies: .NET Core MVC, Razor Pages, SQL Server, C#, Bootstrap.

EDUCATION

Bachelor of Information Technology, University of Education - **3.6/4.0**

2020 - 2024

Fsc - Pre Engineering, City College Multan - 88%

2018 - 2020

Matric, Govt. Comprehensive Higher Secondary School - 88%

2016 - 2018

CERTIFICATIONS

Technical Domain - NFTP

2021

Full Stack Web App Development Training - Punjab Information Technology Board
