---

Fresh Graduate - Software Engineer with over 3 years (including undergraduate) of experience in Full Stack Web and Mobile App Development.

## EDUCATION

---

<b>Bachelor of Information Technology</b> , University of Education - <b>3.6/4.0</b>	2020 - 2024
<b>Fsc - Pre Engineering</b> , City College Multan - 88%	2018 - 2020
<b>Matric</b> , Govt. Comprehensive Higher Secondary School - 88%	2016 - 2018

## SKILLS

### Technical Skills:

- **Full Stack Development:** Django, PHP, ASP.NET Core, Node.js, React, MERN Stack, Rest API's
- **Mobile Development:** Android, Flutter
- **Databases:** MySQL, MS SQL, PostgreSQL, MongoDB, Firebase, SQLite
- **Version Control:** Git, GitHub, Bit bucket, GitLab
- **Cloud Services, Containerization & Deployment:** AWS, MS Azure, Docker, Linux
- **Debugging and Troubleshooting**

### Soft Skills:

- Rapid Learner, Problem Solver, Team Collaboration, Effective Communication

## EXPERIENCE

---

<b>Full Stack Development</b> Freelance/Remote	2022 - Present
---	----------------

- Architected and maintained full stack applications with varied tech stacks including using Django, PHP, ASP.NET Core, Node.js, and the MERN Stack.
- Developed mobile applications using Android and Flutter
- Managed databases including MySQL, MS SQL, PostgreSQL, MongoDB, Firebase, and SQLite.
- Utilized version control systems like Git, GitHub, Bitbucket, and GitLab.
- Deployed apps on AWS and MS Azure with Docker on Linux, debugging systems

---

<b>Front-end Development</b> Freelance/Remote	2021 - Present
--	----------------

- Gained expertise in core web technologies, detailed at <https://anskhan.netlify.app/projects>
- Created websites using HTML, CSS, JavaScript, Bootstrap, jQuery, and WordPress.

## PROJECTS

---

**Personal Portfolio Website** - <https://anskhan.netlify.app>

**Automated University TimeTable Scheduler - Django**

- Engineered a tool using Django(Python's Web Framework) to automate and decentralize university timetabling.
- Addressed inefficiencies by shifting from centralized to distributed scheduling.
- Designed and integrated features for administrators and teachers to create personalized timetables.

- Implemented two scheduling methods:
  - **Randomized Scheduling:** Auto-generates timetables without specific preferences.
  - **Personalized Scheduling:** Customizes timetables based on user preferences.
- Reduced timetable creation time and effort, enhancing user satisfaction and organizational efficiency.
- Technologies: Django, Python, MS SQL server, JavaScript, jQuery, HTML, CSS.

#### **Navigation App - Flutter**

- Engineered a mobile app helping to navigate through map(pre loaded) fully offline. Utilized socket server with embedded sensors to obtain coordinates, speed and other meta data.
- Technologies: Flutter, Dart

#### **CERTIFICATIONS**

---

**Technical Domain - NFTP**

2021

Full Stack Web App Development Training - Punjab Information Technology Board
